

Client Journey System (Krissy)

GoHighLevel Workflow Documentation

1. Overview

The Client Journey System is a set of ten GoHighLevel workflows that carries a coaching client from the moment their deal closes through to their final session. It handles the scheduled emails, the renewal offers, the session count, and the internal alerts to Krissy.

Two engines run side by side

ENGINE	WORKFLOWS	DRIVEN BY
Calendar engine	WF-K2a, K2f, K2b, K2c, K2d, K2e	Fixed days counted from Program Start Date
Session engine	WF-K3, WF-K4	Real appointment activity

The two never interact. A renewal email sent on day 35 does not know how many sessions the client has actually used.

2. System Overview

```

DEAL CLOSED WON (Main Sales Pipeline - New)
|
v
WF-K1 CLIENT SETUP      start date + Krissy alert + session allowance
|
+       +       +
v       v       v
CALENDAR ENGINE          SESSION ENGINE
Day 21 WF-K2a Check-In    WF-K3 Session Counter (Used +1 / Remaining -1)
Day 28 WF-K2f Next Steps      |
Day 35 WF-K2b Next Steps      v Remaining = 1
Day 42 WF-K2c Check-In    WF-K4 Last Session Alert (Krissy + client)
Day 59 WF-K2d Next Steps
Day 84 WF-K2e Completion
|
v
CONTINUATION PROGRAMS PIPELINE Outreach Sent -> Needs Follow-Up -> Krissy task

RUNS ON ITS OWN: WF-K5 Coach Handoff -- fires when a contact's assigned user changes
  
```

3. Fields, Pipelines & Tags

Everything below is shared across workflows. Renaming or deleting any of it breaks the system silently.

Custom fields

FIELD	PURPOSE
Program Start Date	Set at Closed Won. Every scheduled email counts from this date.
Offer Discussed	Which program the client bought. Drives all branching.
Sessions Purchased	Sessions the client is entitled to.
Sessions Used	Sessions taken (a no-show counts as taken).
Sessions Remaining	Sessions left. Triggers the Last Session Alert.

Pipelines

PIPELINE	STAGES USED
Main Sales Pipeline (New)	Closed Won — the entry point for the whole system
Continuation Programs	Outreach Sent · Needs Follow-Up

Tags

TAG	USED FOR
outreach sent	Applied when a Continuation email goes out
ContinueRMM 3-month · 6-month · Forge 6-month · 1-year · RFB 6-month · 1-year · RMM Plus · continuation engaged	ContinueRMM 3-month · 6-month · Forge 6-month · 1-year · RFB 6-month · 1-year · RMM Plus · continuation engaged

4. The Ten Workflows

The system is email-only — there are no SMS actions anywhere. Full email body copy was not supplied and is marked *Information Not Provided*.

1 · WF-K1 — Closed Won Client Setup

PURPOSE	The entry point. Starts the client's clock and records their session allowance.
TRIGGER	Opportunity moves to Closed Won in Main Sales Pipeline (New)
STEPS	1. Set Program Start Date = today 2. Email Krissy — "New client: [name]" with contact details and a prompt to onboard 3. Branch on Offer Discussed → set Sessions Purchased (12 / 6 / 6 / 6 / 6 / 4 / not set)
OUTCOME	Client has a start date and an allowance; Krissy is notified; both engines can now run.

2 · WF-K2a — Week 3 Check-In

PURPOSE	Encouraging check-in three weeks in. Nothing to buy.
TRIGGER	Day 21 from Program Start Date · any main program
STEPS	Send one email — "Checking In On Your Journey". Asks how things are going, encourages consistency, invites a reply.
OUTCOME	One email sent. No tags, no branching, no record changes.

3 · WF-K2f — Week 4 Next Steps

PURPOSE	Renewal offer for RMM Plus Coaching, whose four sessions finish around week four.
TRIGGER	Day 28 from Program Start Date · RMM Plus Coaching
STEPS	Split into men's / women's / other, then on both program branches: 1. Email — "Continuing Your Growth Journey" 2. Tag "outreach sent" 3. Add to Continuation Programs → Outreach Sent 4. Wait 5 days 5. Men's branch only: enrolled or engaged? No → move to Needs Follow-Up and create a task for Krissy due in 3 days
OUTCOME	Offer sent and tracked on the pipeline. Non-responders on the men's branch reach Krissy as a task.

4 · WF-K2b — Week 5 Next Steps

PURPOSE	Renewal offer for the six-session programs.
TRIGGER	Day 35 · RMM men/women, RMM VIP Sophie, Couples Coaching, RFB
STEPS	Identical to WF-K2f. Only the subject differs: "Your Next Steps Forward" .
OUTCOME	Same as WF-K2f.

5 · WF-K2c — Week 6 Check-In

PURPOSE	Halfway check-in for the six-session programs.
TRIGGER	Day 42 · any main program
STEPS	Send one email — "Halfway Through Your Journey". Acknowledges the effort so far and reminds the client support is available.
OUTCOME	One email sent. No record changes.

6 · WF-K2d — Week 9 Next Steps

PURPOSE	Renewal offer for RFB 1 Year clients.
TRIGGER	Day 59 · RFB 1 Year
STEPS	Identical to WF-K2f. Subject: "Halfway Through Your Journey".
OUTCOME	Currently none — this workflow reaches nobody. See Finding 1.

7 · WF-K2e — Week 12 Completion

PURPOSE	Completion email at the end of a twelve-week program.
TRIGGER	Day 84 · RFB 1 Year
STEPS	Send one email. Body celebrates the milestone and invites a next-steps conversation; the subject still reads "Halfway Through Your Journey" (see Finding 4).
OUTCOME	Client is congratulated. Nothing is tagged, so completion is not visible on the record.

8 · WF-K3 — Session Counter

PURPOSE	Keeps the session balance accurate. WF-K4 depends on it.
TRIGGER	Appointment marked Showed — One on One Coaching Session calendar only Appointment marked No Show — any calendar
STEPS	Sessions Used +1 · Sessions Remaining –1
OUTCOME	Balance updated. Note a no-show consumes a session — confirm this matches what clients are told at sign-up.

9 · WF-K4 — Last Session Alert

PURPOSE	Warns Krissy and the client before the final session, so the renewal conversation happens during it.
TRIGGER	Sessions Remaining changes to exactly 1
STEPS	1. Email Krissy — "[name] has their FINAL session next", with contact details 2. Email client — "Your Final Session Is Coming Up"
OUTCOME	Both parties are prepared. Example: 6→5→4→3→2 nothing · 2→1 both emails · 1→0 nothing.

10 · WF-K5 — Coach Handoff

PURPOSE	Gives a new coach everything they need in one email.
TRIGGER	The assigned user on a contact changes
STEPS	Email the new coach: client name, email and phone · program · intake summary · note that the signed contract is on the contact record · review before the first session
OUTCOME	New coach is briefed. Runs independently of both engines.

Continuation- Tracker System (Krissy)

GoHighLevel Workflow Documentation

A four-workflow system that manages a coaching client's journey after graduation, from identifying completed clients, tracking continuation engagement, recording enrollments, and managing clients who decline continuation programs.

1. Overview

A four-workflow system that manages a coaching client's journey after graduation, from identifying completed clients, tracking continuation engagement, recording enrollments, and managing clients who decline continuation programs.

#	Workflow	What it does
1	WF-CT1 Graduation Entry	Identifies clients who reach the end of their program, marks them as graduated, and creates a continuation opportunity
2	WF-CT2 Continuation Engagement	Tracks client engagement through clicks, replies, and appointments, then moves interested clients into the continuation pipeline
3	WF-CT3 Continuation Enrolled	Records continuation program purchases by creating opportunities with the correct program value
4	WF-CT4 Continuation Declined	Identifies graduated clients who did not enroll and creates a follow-up opportunity

System Overview

The Continuation Tracking System begins when a client reaches the end of their initial coaching program. Two main processes run together:

Graduation Engine

Tracks clients who complete their initial program.

Workflow:

WF-CT1 Graduation Entry

Purpose:

- Identify completed clients
- Apply graduation status
- Begin continuation tracking

Continuation Pipeline Engine

Tracks whether a graduated client:

- Shows interest
- Engages with continuation offers
- Enrolls into another program
- Declines all continuation options

Workflows:

- WF-CT2 Continuation Engagement
- WF-CT3 Continuation Enrolled
- WF-CT4 Continuation Declined

Name	Type	Purpose
Program Start Date	Date Field	Tracks when the client started their program
Existing Client	Contact Tag	Identifies active coaching clients
Graduated	Contact Tag	Marks clients who completed their program
Outreach Sent	Contact Tag	Identifies clients who received continuation outreach
Continuation Engaged	Contact Tag	Tracks clients who interacted with continuation offers
Enrolled Tags	Contact Tags	Identifies purchased continuation programs
Declined-All	Contact Tag	Marks clients who declined all continuation options

Pipelines

Continuation Program Pipeline

Used for tracking clients after graduation.

Stages include:

- Continuation Offer
- Engaged
- Enrolled
- Declined

1. WF-CT1 Graduation Entry

Purpose

Automatically identifies clients who complete their coaching program, marks them as graduated, and moves them into the continuation program pipeline.

Trigger

A contact enters when:

- Program Start Date field is populated
- 77 days have passed since the Program Start Date
- Contact has the tag:

existing client

Flow

Program Start Date reaches Day 77

Check:

Existing Client Tag?

Add "graduated" Tag

Create/Update Opportunity

Pipeline:

Continuation Program

Stage:

Continuation Offer

Status:

Open

Actions**1. Add Graduation Status**

Adds:

graduated

This identifies the client as having completed their original program.

2. Create Continuation Opportunity

Creates or updates an opportunity:

Pipeline:

Continuation Program

Stage:

Continuation Offer

Opportunity Name:

{{contact.name}}

Status:

Open

Result

The client is officially moved from active coaching into the continuation journey.

2. WF-CT2 Continuation Engagement

Purpose

Tracks whether graduated clients engage with continuation offers through link clicks, appointment confirmations, or replies.

Trigger

A contact enters when ANY of the following happen:

- Clicks tracked continuation links
- Appointment confirmed
- Customer replies

Flow

Client interacts with continuation offer

Check:

Has "outreach sent" tag?

Add continuation engaged tag No Action

Create/Update Opportunity

Pipeline:

Continuation Program

Stage:

Engaged

YES Branch

If contact has:

outreach sent

The workflow:

Add Tag

continuation-engaged

Create/Update Opportunity

Pipeline:

Continuation Program

Stage:

Engaged

Opportunity Name:

{{contact.name}}

NO Branch

If contact does not have:

outreach sent

No action occurs.

The workflow ends.

3. WF-CT3 Continuation Enrolled

Purpose

Records when a client purchases a continuation program and creates an opportunity with the correct program value.

Trigger

A contact enters when one of these enrollment tags is added:

- enrolled-continuermm-3mo
 - enrolled-continuermm-6mo
 - enrolled-forge-1yr
 - enrolled-forge-6mo
 - enrolled-rfb-1yr
 - enrolled-rfb-6mo
 - enrolled-rmmplus
-

Flow

Enrollment Tag Added

Identify Program

Create/Update Opportunity

Assign Program Value

Program Values

Program	Opportunity Value
Continue RMM 3 Month	\$1,500
Continue RMM 6 Month	\$2,000
Forge 1 Year	\$8,500

Program	Opportunity Value
Forge 6 Month	\$4,997
RFB 1 Year	\$8,500
RFB 6 Month	\$4,997
RMM Plus	\$2,997

Opportunity Details

Pipeline:

Continuation Program

Stage:

Enrolled

Opportunity Name:

{{contact.name}}

4. WF-CT4 Continuation Declined

Purpose

Identifies graduated clients who have not enrolled into any continuation program after the decision period and creates a follow-up opportunity.

Trigger

A contact enters when:

- Custom date field reaches 90+ days
- Contact has:

graduated

tag

Flow

Graduated Client

Wait 90 Days

Check Enrollment Tags

Enrolled

Not Enrolled

Stop

Add declined-all tag

Create Opportunity

Enrolled Branch

Checks for:

- Continue RMM
- Forge
- RFB
- RMM Plus

If found:

No action occurs.

Not Enrolled Branch

Adds:

declined-all

Creates/updates opportunity:

Pipeline:

Continuation Program

Stage:

Declined

Opportunity Name:

{{contact.name}}
